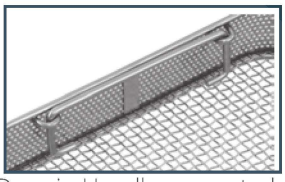
Side Perforated Baskets with Wire Base

The wire base is designed for quickly drying instruments after washing and sterilizing. They are perfect for handling and storage of instruments.

Our side perforated baskets are:

- Manufactured with stainless steel 304, non-magnetic
- Electropolished
- Burr free to protect wraps and prevent injury
- Smooth rounded corners
- Single frame, double frame and detention frame lids available
- Side walls are perforated to protect sharp instrument edges and tips from damage. The hole size is 2.0 mm.
- Meets all the requirements of automatic washing and sterilization for all types of instruments
- Separate lids are available with single frame, double frame and detention shapes
- Available with drop in and folding handles
- Top and bottom frame diameter: 5.0 mm
- Base available in wire mesh with opening squares of 4.2 mm and wire diameter of 1.0 mm
- The images show the smooth round corners (left) and the inner mounted drop in handles (right)

Rounded corners



Drop in Handles mounted on the inside
